

MIDDLE SCHOOL MATH CLASSROOM COACHING

Partner for Student Success

Math Classroom Coaching helps students build a strong foundation in middle school, so they will be on track to succeed in high school math.

As a Math Classroom Coach you will:

- Provide consistent, positive interaction with 2-3 students
- Show students you care about their academic success
- Motivate students by bringing your enthusiasm for math
- Build a strong foundation for future success in high school
- Model cooperative behavior as you strengthen student skills
- Support teachers by providing individualized instruction
- Experience the reward of knowing you helped another person
- Work in class 45 minutes a week with the teacher present
- Utilize training materials and on-going support to ensure success

"I thought I was a horrible math student until you all started tutoring us...Now, it's my second favorite class next to lunch!"

- 8th grade student in Math Classroom Coaching

"I will definitely treasure the relationship building and bonding with the students the year commitment provides." – Christy Feng

"I want to be a positive external influence in the lives of these students. I like the idea of working together all year - it provides a chance to open up channels of communication."

- Jarom Peña
